# Forest Finds

How many hidden paper products can you find in the forest?

book  
broom handles  
bubble gum  
coffee filter  
envelop

gift wrap  
grocery bag  
ice cream cup  
kite  
magazine paper

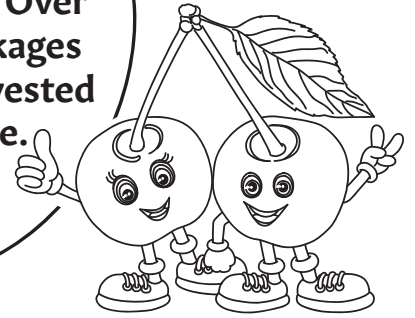

party hat  
stack of dollar bills  
teabags  
toilet paper roll  
toothpaste

Trees from forests are used to make more than 5,000 products that we use every day.

California cherry season lasts only 6 weeks. Over 4 million 18 lb packages of cherries are harvested during that time.

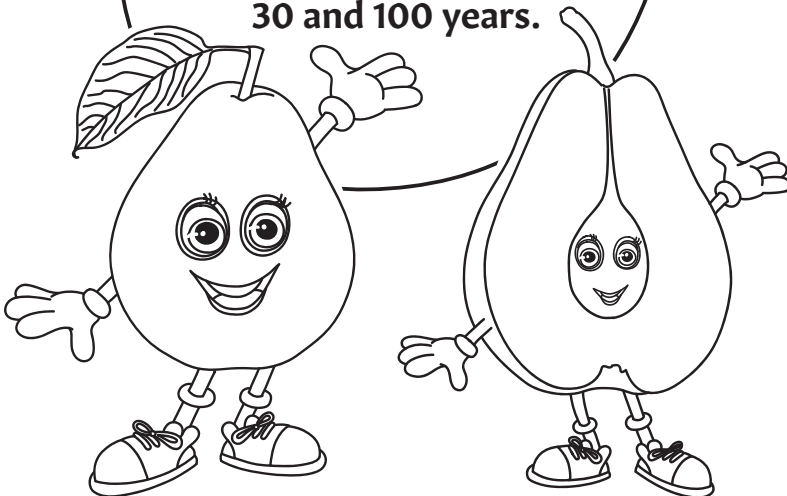

Extra virgin olive oil certified by the California Olive Oil Council (COOC) is among the world's highest quality olive oil.

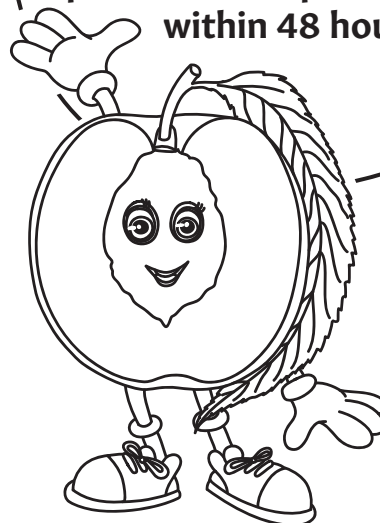

An average worker bee makes only about 1/12 teaspoon of honey in its lifetime.

Pear trees have a long, productive life, as the average age of a California pear orchard is between 30 and 100 years.

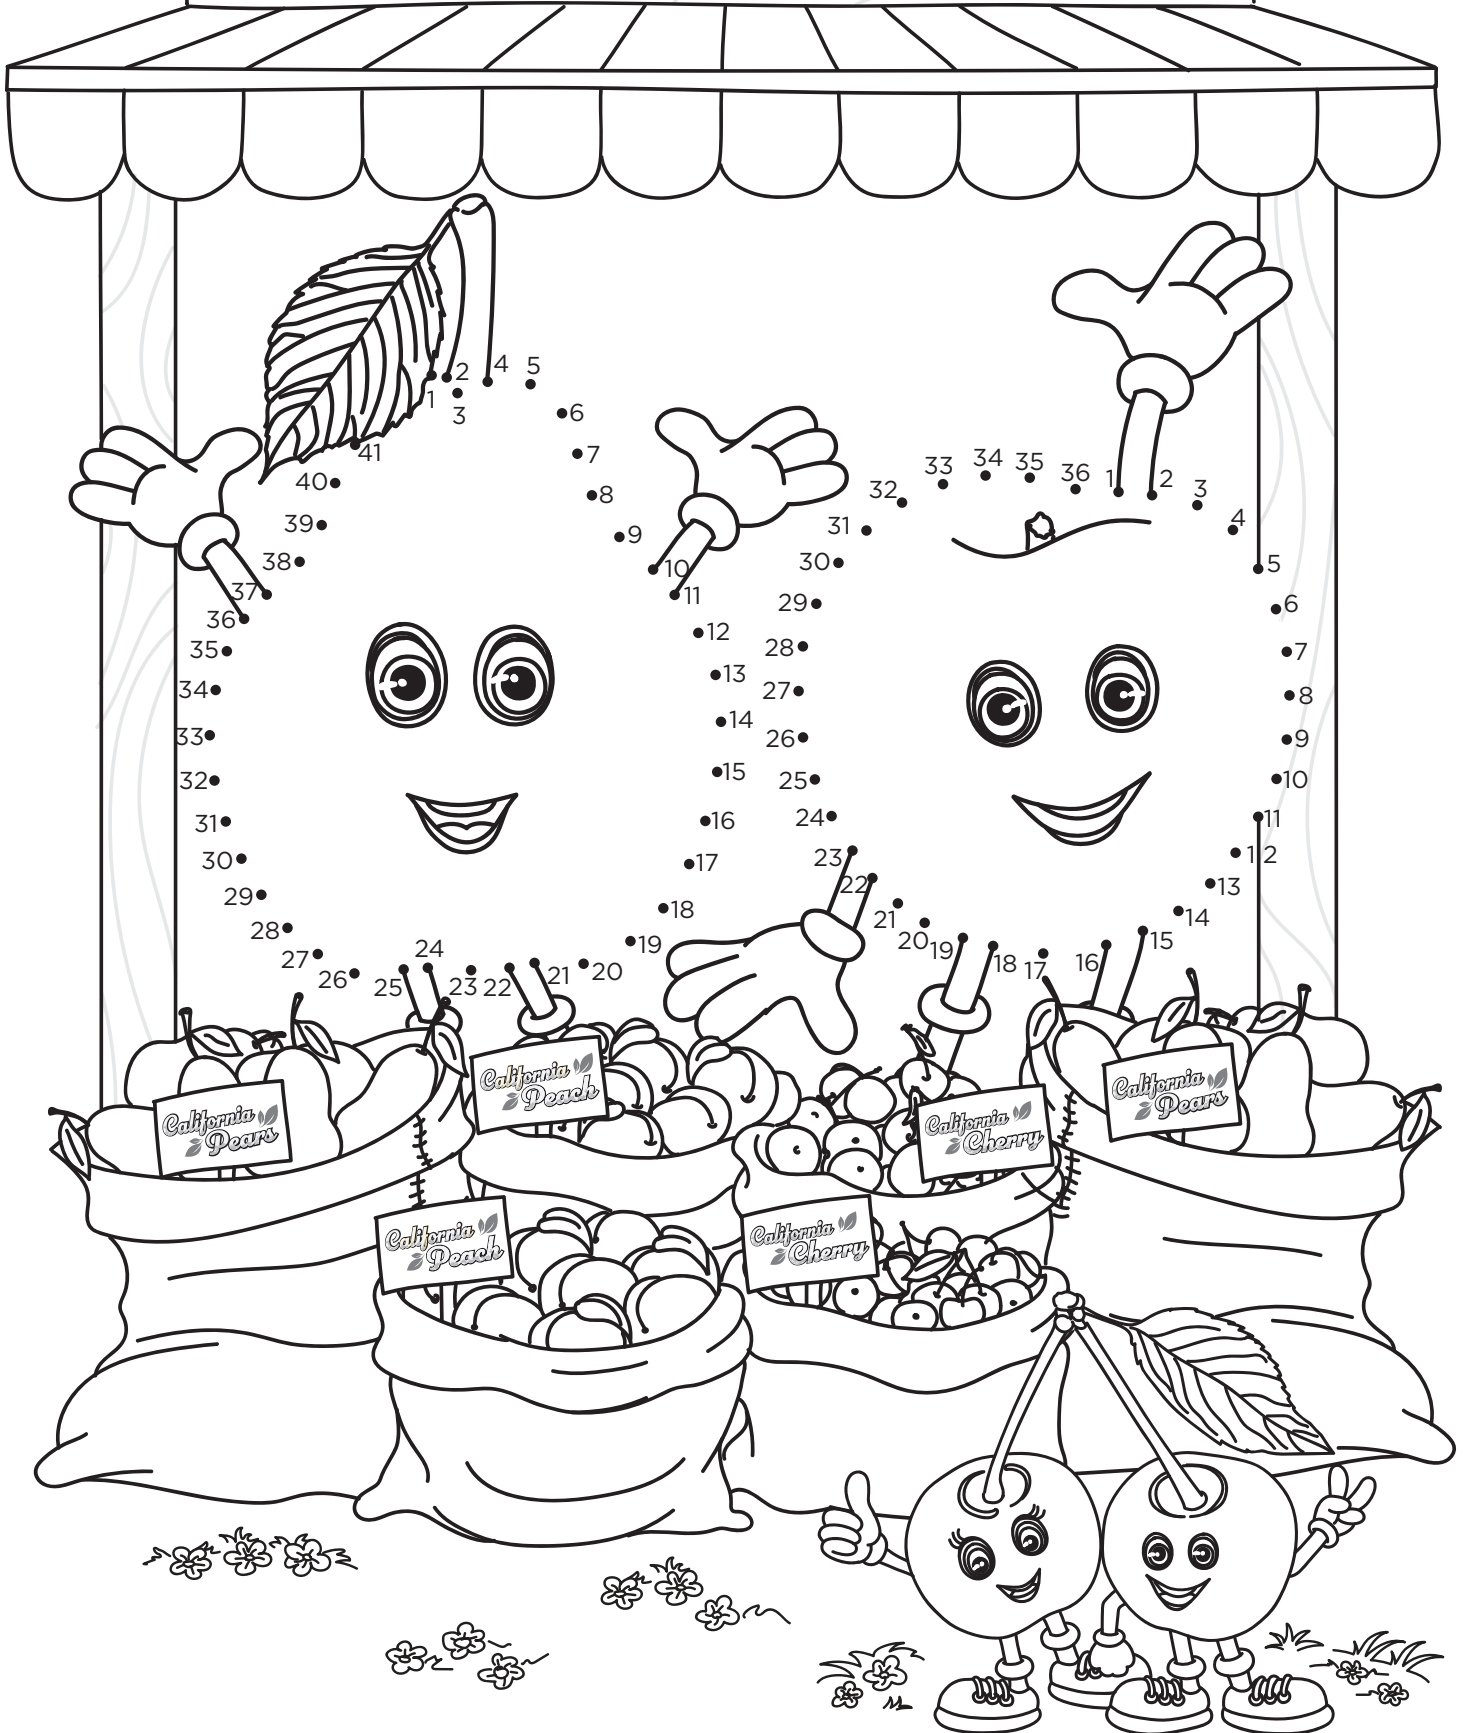

California cling peaches in cans, jars, and single-serve cups are just as or more nutritious than fresh peaches. Peaches are harvested and packed at the peak of flavor within 48 hours.
